SAFETY DATA SHEET	lyondellbasell
RP435TX01	Gen. Variant: SDS_CA_GHS
Version 1.0 Revision Date 01	/10/2022 Print Date 12/04/2023 SDS No.: BE43213
1. IDENTIFICATION OF THE SUBST	ANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING
Trade name:CAS Number::Chemical characterization:Chemical name:Synonyms:	RP435TX01 9010-79-1 Polypropylene copolymer 1-Propene, Polymer with Ethene Ethylene-Propylene copolymer, 1-Propene-Ethylene- Copolymer
Identified uses :	Manufacture of plastic articles by injection molding, extrusion or other conversion process.
Prohibited uses :	FDA Class III medical devices; European class III medical devices; Health Canada class IV Medical Devices; Applications involving permanent implantation into the body; Life-sustaining medical applications
<u>Company Address</u> Equistar Chemicals, LP LyondellBasell Tower, Suite 300 1221 McKinney St. P.O. Box 2583 Houston Texas 77252-2583	Company Telephone Customer Service 888 777-0232 product.safety@lyb.com
Emergency telephone number LYONDELL 800-245-4532	
E-mail address : Responsible/issuing person	product.safety@lyb.com
2. HAZARDS IDENTIFICATION	
GHS Classification	
Combustible dust	
Label elements	
Signal word :	Warning
Hazard Statements :	If small particles are generated during further processing, handling or by other means, may form combustible dust concentrations in air.

RP435TX01 /ersion 1.0 Revision Date	
If swallowed	: Adverse health effects due to ingestion are not anticipated.
Notos to physician	
Notes to physician	
Symptoms	: Inhalation of process fumes and vapors may cause soreness the nose and throat and coughing.
Hazards	: Dust contact with the eyes can lead to mechanical irritation. Molten polymer may cause thermal burns.
Treatment	: Treatment of overexposure should be directed at the control or symptoms and the clinical condition of the patient.
FIRE-FIGHTING MEASURES	: SMALL FIRE:
	Use dry chemical, CO2, or water spray.
	Use water spray hose nozzles from a safe location.
Unsuitable extinguishing media	: None known.
Specific hazards during fire fighting	 Keep away from heat and sources of ignition. In case of fire hazardous decomposition products may be produced such as: Carbon monoxide, carbon dioxide and unburned hydrocarbor (smoke).
Special protective equipment for fire-fighters	: Wear approved positive pressure self-contained breathing apparatus and firefighter protective clothing.
Further information	 Combustible particulate solid, will decompose under fire conditions. Calorific Value: 8000 - 11000 kcal/kg Fight fire from safe distance with hose lines or monitor nozzle Heat from fire may melt, decompose polymer, and generate flammable vapors. Move containers from fire area if it can be done without risk. Evacuate immediately in the event of opening of storage container pressure relief devices or discoloration of container. Always stay away from tanks engulfed in fire. Do not attempt to get on top of storage containers involved in fire. Cool storage containers with large volumes of water even after the storage container of the storage containers with large volumes of water even after the storage container of the storage containers with large volumes of water even after the storage container of the storage containers with large volumes of water even after the storage container of the storage containers with large volumes of water even after the storage container of the storage container of the storage containers with large volumes of water even after the storage container of the storage containers with large volumes of water even after the storage container of the storage containers with large volumes of water even after the storage container of the storage container of the storage container of the storage container of the storage containers with large volumes of the storage container of the storage container

ersion 1.0 Revision Date 0	1/10/2022 Print Date 12/04/2023 SDS No.: BE43
	fire is out.
ACCIDENTAL RELEASE MEASU	JRES
Personal precautions	: Equip responders with proper protection.
	Creates dangerous slipping hazard on any hard smooth surface.
	Equip emergency responders with proper personal protecti equipment (PPE) Avoid generating dust.
	Avoid dispersal of dust in the air (i.e., clearing dust surface with compressed air). Potential combustible dust hazard.
	Polymer particles create slipping hazard on hard smooth surfaces.
Environmental precautions	: Do not flush into surface water or sanitary sewer system.
Methods for containment / Methods for cleaning up	: On land, sweep/shovel into suitable disposal containers or vacuum using equipment which avoids ignition risk. On water, material is insoluble; collect and contain as any solid. All recovered material should be packaged, labeled,
	transported and disposed of or reclaimed in conformance w applicable laws and regulations and in conformance with go engineering practices. Reclaim where possible.
Handling and storage	
Precautions for safe handling	I
Advice on safe handling	 Material is in a pellet form. If converted to small particles during further processing, handling, or by other means, may form combustible dust concentrations in air. Avoid dust accumulation in enclosed space.
	Use dust collection systems designed per NFPA 654 to avo dust accumulation. Avoid generating dust; fine dust suspended in air and in the
	presence of an ignition source is a potential dust explosion hazard.
	Static discharge (spark), or other ignition sources, in high due nvironments may ignite the dust and result in a dust explosion

Print Date 12/04/2023

Gen. Variant: SDS_CA_GHS 23 SDS No.: BE43213

lyondellbase

Materials that can be formed when handling this product: Non- specified (inert or nuisance) dust	TWA	3 mg/m3 respirable	US (ACGIH) 2005	
Materials that can be formed when handling this product: Non- specified (inert or nuisance) dust	TWA	15 mg/m3 total dust	US (OSHA) 2005	
Materials that can be formed when handling this product: Non- specified (inert or nuisance) dust	TWA	5 mg/m3 respirable	US (OSHA) 2005	

Consult local authorities for acceptable exposure limits.

Exposure controls

Engineering measures

Follow the recommendations in NFPA 654 (as amended and adopted) for equipment used to handle this product.

Engineering controls, i.e. enclosed systems, should be used whenever feasible to maintain exposures below acceptable criteria. When such controls are not feasible, or sufficient to achieve full conformance, other engineering controls such as local exhaust ventilation should be used. Equipment and vessels handling combustible dust from this material should be designed to either prevent dust explosions (inerting) or safely vent dust explosions per NFPA 654 Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment).

Personal protective equipment

Respiratory protection	 Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Use appropriate respiratory protection where atmosphere exceeds recommended limits. Where workers could be exposed to dust concentrations above the exposure limit they must use appropriate certified respirators.
Hand protection	: Wear gloves that provide thermal protection where there is a potential for contact with heated material.
Eye and face protection	: Dust service goggles should be worn to prevent mechanical

PHYSICAL AND CHEMICAL PF	PERTIES	
Color	solid : Translucent to white	
Odor	: Slight.	
Odor Threshold	: No value available.	
Flash point	: No Data Available.	
Lower explosion limit	: The minimum explosive conc varies according to particle si	centration (MEC) for polymer dus
Upper explosion limit	: Not applicable.	
Flammability (solid, gas)	: Polymer will burn but does no	ot easily ignite.
Oxidizing properties	: Not considered an oxidizing a	agent.
Autoignition temperature	: > 300 °C	
Decomposition temperature	: not determined	
Melting point/range	: 50 - 170 °C	
Boiling point/boiling range	: Not applicable.	
	: Not applicable.	
Vapor pressure		
Vapor pressure Density	: < 1 g/cm3

	e 01/10/2022 Print Date 12/04/2023 SDS No.: BE432	
Water solubility	: Insoluble.	
Partition coefficient: n- octanol/water	: No Data Available.	
Viscosity, dynamic	: Not applicable.	
Relative vapor density	: Not applicable.	
Evaporation rate	: Not applicable.	
Explosive properties	: No Data Available.	
Other Information	: No additional information available.	
STABILITY AND REACTIVIT	Y	
Reactivity	: No known reactivity hazards.	
Chemical stability	: Stable under normal conditions.	
Hazardous reactions	: Will not occur.	
Conditions to avoid	: Avoid contact with strong oxidizers, excessive heat, sparks or open flame.	
Materials to avoid	: Material may be softened by some hydrocarbons.	
Hazardous decomposition	: Not expected to decompose under normal conditions.	
products Thermal decomposition	: Carbon monoxide, olefinic and paraffinic compounds, trace amounts of organic acids, ketones, aldehydes and alcohols may be formed.	
. TOXICOLOGICAL INFORMA	TION	
Acute toxicity		
Acute oral toxicity	: Not classified	
Acute inhalation toxicity	: Not classified	
Acute dermal toxicity	: Not classified	
Skin corrosion/irritation	: Not a skin irritant.	
Serious eye damage/eye	: Not an eye irritant.	
	8 / 12

The ingredients of this product are compliant with the following chemical inventory requirements or exemptions.

*Additional Explanatory Status Statements follow the table, as necessary.

Country/Region	Inventory	Status Description
Australia	AICS	Not Compliant
Canada	DSL	Compliant
China	IECSC	Not Compliant
Europe	REACH	See REACH Compliance Statement
Japan	ENCS	Not Compliant
Korea	KECI	Not Compliant
New Zealand	NZIoC	Not Compliant
Philippines	PICCS	Not Compliant
United States of America	TSCA	Compliant
Taiwan	TCSCA	Not Compliant

REACh status

If the product has been purchased from any company of the LyondellBasell group of companies registered in the European Union, we confirm that all substances in this preparation have been registered under REACh, in accordance with the deadlines set forth in REACh. (Regulation (EU) No. 1907/2006)

Contact product.safety@lyb.com for additional global inventory information.
